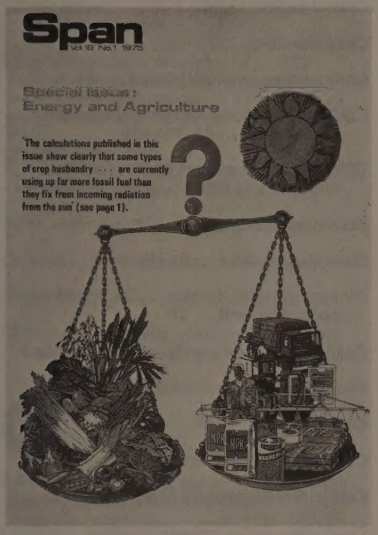
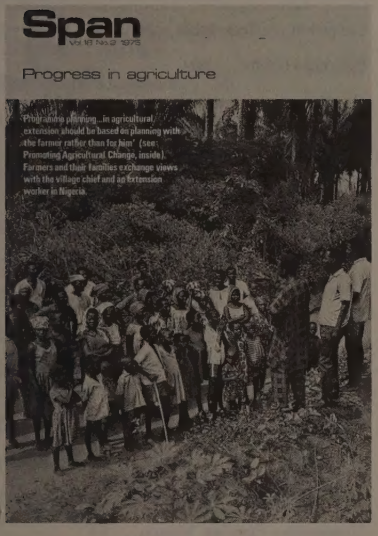
34/F

Span Index 1975

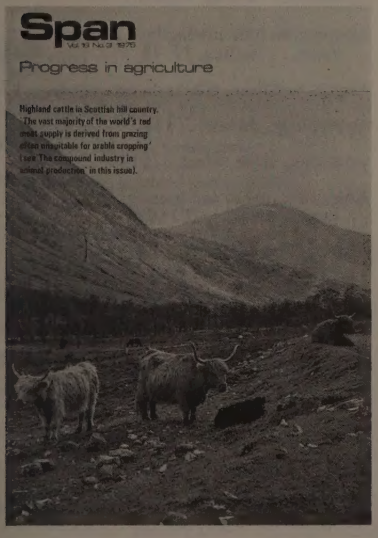
Volume 18 Nos 1, 2, 3



Span
Special Issue:
Energy and Agriculture
The calculations published in this issue show clearly that some types of crop husbandry . . . are currently using up far more fossil fuel than they fix from incoming radiation from the sun (see page 1).



Span
Progress in agriculture
Programme planning...in agricultural extension should be based on planning with the farmer rather than for him (see Promoting Agricultural Change, inside). Farmers and their families exchange views with the village chief and an extension worker in Nigeria.



Span
Progress in agriculture
Highland cattle in Scottish hill country. The vast majority of the world's red meat supply is derived from grazing often unsuitable for arable cropping (see The compound industry in animal production in this issue).

Pest Control and its Ecology, by van Emden, . . 135
Pest War, The, by Fletcher, . . 134, 135

Boom spraying, in orchards, . . 70 (fig.)

Boron pollution, effects on agriculture, . . 132

Bos indicus, . . 108

Botswana, tsetse control, . . 72, 73

BR (synthetic rubber), costs, . . 57 (fig.), 58

Brazil, nitrogen fixation in *Paspalum notatum*. . . 102 (fig.)
triticale trials, . . 66

Breeding, animal, *see* Animal breeding
plant, *see* Plant breeding

Broadbalk "Wilderness", Rothamsted, . . 101 (fig.)

Brunei, agricultural development project, . . 54

Buffalo, India, . . 76, 77 (fig.)

Butadiene, synthetic rubber, . . 56, 57 (fig.) 58

c

Cadmium pollution, effects on agriculture, . . 131

Calcium, effect on apple quality, . . 113

Calorific values, sugar cane components, . . 13, 14

Canada, poultry research centre, . . 132
triticale cultivation, . . 66

Canning food, energy inputs, . . 15 (fig.), 16 (fig.)

Caprolactum, . . 57

Captan, . . 70

Cassava, dry matter yield, . . 12 (fig.)

Cassava production, energetic efficiency, . . 8 (fig.)
Nigeria, . . 54 (fig.)

Cattle, beef, demonstration of management systems, . . 83 (fig.), 84 (fig.)
dairy, breeding programme, India, . . 76 (fig.)
energetic efficiency of food production from, . . 7 (fig.), 8 (fig.)
new breeds, . . 108 (figs.)
numbers in India, . . 77 (fig.)

Cellulose, digestion in rabbits, . . 115

Cellulose fibres, prices, . . 57

Centre for Overseas Pest Research (COPR), locust maps, . . 135

Cereal production, demonstration farm, . . 83, 84
energetic efficiency, . . 7 (fig.)
energy requirements, . . 8 (fig.)
energy requirements, crop drying, . . 31
energy requirements, different cultivation treatments, . . 25 (fig.)
energy requirements, tractor fuel, . . 24 (fig.)

Cereals, world production, . . 65
yield in various parts of world, . . 23 (fig.)

Chemurgists, . . 32

Chick pea, . . 85

Chickweed, control, . . 84

China, fertiliser and tractor use, . . 23 (fig.)
grain yield, . . 23 (fig.)
population density, . . 23 (fig.)

Chloris gayana, . . 80

Chop threshing, . . 33 (fig.)

Chromosome number, triticale, . . 65

CIAT (International Centre of Tropical Agriculture), . . 85, 98, 101

CIMMYT (International Maize and Wheat Improvement Centre), . . 66, 98 (fig.), 99

Clam-digging machine, . . 129

Claviceps purpurea, . . 66 (fig.)

Clovers, nitrogen fixation, . . 20, 45, 85
use in grassland, . . 20

Coal, demand and supply, . . 5(fig.), 6 (fig.)

Cochliomyia hominivorax, . . 61

Cockle fishing, . . 129

Cocoa, world commodity market, . . 59

Coffee, world commodity market, . . 59

Colchicine, use in triticale breeding, . . 65

Colombia, triticale trials, . . 66

Colorado beetle, . . 60
